Preface

Dear Photographers and WPE members,

It has been a year now since the great WPE Awards adventure began. It was in the month of January 2019 that the website was opened following six months of preparation.

Our success rate during this year is far beyond our expectations, as you are now nearly 4000 active users enrolled on our website.

Following our three competitions; First Half, Second Half and Annual Final, we have received over 5000 photos to judge, taken by photographers from all over the world.

All this excitement and enthusiasm has allowed us to further improve our website and we continuously propose new options to help you promote your professional activity and compete with the best worldwide photographers.

Its time today to look back across 2019 by presenting this annual catalogue.

Inside you will discover all the artists whose photos won First, Second, or Third place from each category.

The photographs are presented in a decreasing order based on their accumulated points during the year of 2019.

Best Regards,

As I veered from photographing for pleasure to choosing it as a profession, this black and white photo stuck with me - reminding me how photographs can turn moments into memories. This is perhaps why I am drawn to portraits. All the people and their stories that I get to know during my photographic sessions inform my social vision and fire my creative imagination. Though the awards have been a huge source of encouragement, my stories remain my source of inspiration.”
